

Selecta Biosciences Announces Fourth Quarter and Year End 2018 Financial Results and Provides Corporate Update

- Phase 2 head-to-head (COMPARE) clinical trial of SEL-212 vs. KRYSTEXXA® to begin in 1Q19, interim six-month data expected in 4Q19
- Collaboration with CureCN projected to dose first patient with combination of ImmTOR + AAV gene therapy candidate in 2H19
- Company raises \$33M in gross offering proceeds and \$31.3M in net proceeds in 1Q19, cash runway into 1Q20
- Company to host conference call today at 8:30 a.m. ET

Watertown, Mass., March 15, 2019 - <u>Selecta Biosciences, Inc.</u> (Nasdaq: SELB), a clinical-stage biotechnology company focused on unlocking the full potential of biologic therapies based on its immune tolerance platform technology, ImmTOR, today reported financial results for the fourth quarter and full year ended December 31, 2018 and provided a corporate update.

"During 2018 we laid a strong groundwork for a year of execution in 2019. We kicked off the year by streamlining the company through a corporate restructuring, which is projected to cut our cash burn rate by 19%. We then completed an equity fundraise of approximately \$33 million in gross proceeds and \$31.3 million in net proceeds, and anticipate reporting key milestones for both our chronic refractory gout and gene therapy programs. We continue to believe that our lead program, SEL-212, has the potential to address several unmet needs in chronic refractory gout patients, including sustained serum uric acid reduction, reduced painful flares and once monthly dosing, and we look forward to initiating the planned six-month head-to-head (COMPARE) clinical trial against Krystexxa this month," said Carsten Brunn, Ph.D., President and CEO of Selecta. "We also look forward to further advancing our ImmTOR + AAV gene therapy combination product candidate in Crigler-Najjar Syndrome in collaboration with CureCN in the second half of the year and identifying other ways to advance our ImmTOR platform and grow our strategic partnerships."

2018 and Recent Highlights and Anticipated Upcoming Milestones

SEL-212 (ImmTOR+Pegadricase) for the Treatment of Chronic Refractory Gout:

• Six-Month Head-to-Head (COMPARE) Clinical Trial of SEL-212 vs. Krystexxa Expected to Begin in 1Q19: Selecta expects to initiate a Phase 2 head-to-head (COMPARE) clinical trial of SEL-212, compared to the current FDA-approved uricase therapy, Krystexxa, in the first quarter of 2019. An interim six-month data readout is projected for the fourth quarter of 2019, with a full

- statistical data analysis expected in the first quarter of 2020. The results of the COMPARE trial are expected to inform the design of the planned Phase 3 clinical trial of SEL-212, which the company plans to initiate in the fourth quarter of 2019.
- Reported Phase 2 Data: Selecta has reported data from its Phase 2 trial showing that 66% of
 evaluable patients (21/32), maintained serum uric acid (sUA) levels of <6mg/dL after five oncemonthly treatments of SEL-212 at doses of 0.1 or 0.15 mg/kg of ImmTOR in combination with
 0.2mg/kg of pegadricase. Furthermore, reduced total urate burden and lowered flare rates and
 severity were observed in the Phase 2 clinical trial, and SEL-212 continued to be generally well
 tolerated.

AAV Gene Therapy Program:

Collaboration with CureCN Consortium Projected to Dose First Patient in 2H19: In September 2018, Selecta announced a collaboration with CureCN, a European consortium, for an ImmTOR+AAV gene therapy combination product candidate in Crigler-Najjar Syndrome, building upon preclinical work that was published together with Genethon in Nature Communications in October 2018. Selecta expects CureCN to initiate preclinical toxicology studies in the first half of 2019 and for the combination product candidate to enter the clinic in the second half of 2019.

Corporate Updates:

- Corporate Restructuring Completed in January 2019: Selecta completed a corporate restructuring that reduced the company's workforce by 36 percent as of January 3, 2019. This reduction, coupled with a reprioritization of the company's pipeline programs, is projected to reduce the yearly cash burn by 19 percent.
- Successfully Completed a \$33.3 Million Public Offering; Providing Cash Runway into 1Q20: In January 2019, Selecta completed an underwritten public offering of 22,188,706 shares of its common stock, at a price to public of \$1.50 per share, resulting in net proceeds to Selecta of \$31.3 million, after deducting underwriting discounts and commissions.
- Strengthened Management Team: Effective December 1, 2018, Carsten Brunn, Ph.D., assumed the role of President and CEO of Selecta, following his previous position as President of Pharmaceuticals for the Americas Region and member of the Global Pharmaceutical Executive Committee at Bayer.

Fourth Quarter 2018 Financial Results:

• **Revenue:** For the fourth quarter of 2018, the company recognized \$0.9 million of revenue, which compares to less than \$0.1 million for the fourth quarter of 2017. The increase resulted from an

increase in grant revenue and was the sole result of the conclusion of the company's grant with NIDA.

- Research and Development Expenses: Research and development expenses for the fourth quarter
 of 2018 were \$10.3 million, which compares with \$13.6 million for the fourth quarter of 2017. The
 decrease was driven by reduced expenditures for our preclinical product candidates combined with
 the winding down of the Phase 2 clinical trial of SEL-212 in the second half of 2018.
- **General and Administrative Expenses:** General and administrative expenses for the fourth quarter of 2018 were \$5.1 million, which compares with \$5.7 million for the fourth quarter of 2017. The reduction in costs was primarily the result of reduced consulting fees.
- **Net Loss:** For the fourth quarter of 2018, Selecta reported a net loss of \$(14.7) million, or \$(0.65) per share, compared to a net loss of \$(19.5) million, or \$(0.88) per share, for the same period in 2017.
- Cash Position: Selecta had \$37.7 million in cash, cash equivalents and restricted cash as of December 31, 2018, which compares to cash, cash equivalents and short-term investments of \$50.5 million at September 30, 2018. The company currently has a cash runway into the first quarter of 2020, which includes proceeds net of underwriting discounts and commissions of \$31.3 million from the company's recent follow-on offering in January 2019.

Conference Call Reminder

Selecta management will host a conference call at 8:30 a.m. ET today to provide a corporate update and review the company's fourth quarter and year end 2018 financial results. Investors and the public can access a live and archived webcast of this call via the Investors & Media section of the company's website, http://selectabio.com. Individuals may also participate in the live call via telephone by dialing (844) 845-4170 (domestic) or (412) 717-9621 (international) and may access a teleconference replay for one week by dialing (877) 344-7529 (domestic) or (412) 317-0088 (international) and using confirmation code 10127200.

About Selecta Biosciences, Inc.

Selecta Biosciences, Inc. is a clinical-stage biotechnology company focused on unlocking the full potential of biologic therapies based on its immune tolerance technology (ImmTOR) platform. Selecta plans to combine ImmTOR with a range of biologic therapies for rare and serious diseases that require new treatment options due to high immunogenicity. The company's current proprietary pipeline includes ImmTOR-powered therapeutic enzyme and gene therapy product candidates. SEL-212, the company's lead product candidate, is being developed to treat chronic refractory gout patients and resolve their debilitating symptoms, including flares and gouty arthritis. Selecta's proprietary gene therapy product candidates are in preclinical development for certain rare inborn errors of metabolism and incorporate

ImmTOR with the goal of addressing barriers to repeat administration. Selecta is based in Watertown, Massachusetts. For more information, please visit http://selectabio.com.

Forward-Looking Statements

Any statements in this press release about the future expectations, plans and prospects of Selecta Biosciences, Inc. ("the company"), including without limitation, statements regarding the progress of the Phase 2 clinical trial of SEL-212, the anticipated timing of the planned Phase 2 head-to-head (COMPARE) clinical trial comparing SEL-212 and Krystexxa, related data readouts and expectations surrounding the ability of the COMPARE results to inform the planned Phase 3 clinical trial of SEL-212, the anticipated timing of the planned Phase 3 clinical trial, whether the head-to-head trial with Krystexxa will demonstrate superiority, the potential of ImmTOR to enable re-dosing of AAV gene therapy and the anticipated timing of preclinical toxicology studies in collaboration with CureCN and initiation of a clinical trial related thereto, the potential of SEL-212 to fulfill unmet needs in chronic refractory gout patients including sustained sUA reduction, reduced flares, and once monthly dosing, the company's commercial plans, the ability of the company's ImmTOR platform, including SEL-212, to unlock the full potential of biologic therapies, the potential of SEL-212 to treat chronic refractory gout patients and resolve their debilitating symptoms, the potential treatment applications for product candidates utilizing the ImmTOR platform in areas such as enzyme therapy and gene therapy, the company's plan to apply its ImmTOR technology platform to a range of biologics for rare and serious diseases, the potential of the company's two gene therapy product candidates to enable repeat administration, the potential of the ImmTOR technology platform generally and the company's ability to grow its strategic partnerships, the sufficiency of the company's cash, cash equivalents and short-term investments, and other statements containing the words "anticipate," "believe," "continue," "could," "estimate," "expect," "hypothesize," "intend," "may," "plan," "potential," "predict," "project," "should," "target," "would," and similar expressions, constitute forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by such forwardlooking statements as a result of various important factors, including, but not limited to, the following: the uncertainties inherent in the initiation, completion and cost of clinical trials including their uncertain outcomes, the availability and timing of data from ongoing and future clinical trials and the results of such trials, whether preliminary results from a particular clinical trial will be predictive of the final results of that trial or whether results of early clinical trials will be indicative of the results of later clinical trials, the unproven approach of the company's ImmTOR technology, potential delays in enrollment of patients, undesirable side effects of the company's product candidates, its reliance on third parties to manufacture its product candidates and to conduct its clinical trials, the company's inability to maintain its existing or future collaborations, licenses or contractual relationships, its inability to protect its proprietary technology and intellectual property, potential delays in regulatory approvals, the availability of funding sufficient for its foreseeable and unforeseeable operating expenses and capital expenditure requirements, the company's recurring losses from operations and negative cash flows from operations raise substantial doubt regarding its ability to continue as a going concern, substantial fluctuation in the price of its common stock, and other important factors discussed in the "Risk Factors" section of the

company's Annual Report on Form 10-K for the year ended December 31, 2018, and in other filings that the company makes with the Securities and Exchange Commission. In addition, any forward-looking statements included in this press release represent the company's views only as of the date of its publication and should not be relied upon as representing its views as of any subsequent date. The company specifically disclaims any obligation to update any forward-looking statements included in this press release.
